<i>Partner definitions</i> Implementing Partner - an organisation that signs a cooperation agreement with Forests of the World and who generally is responsible for implementation, resource management and auditing of funds. Implementing partners can have sub-agreements with other organisations implementing funds coming from Forests of the World, the latter being responsible towards the implementing partner. Strategic Partner - an organisation or actor that has an important role for implementation, performance and sustainability, according to above-mentioned criteria, to reach the intervention objectives, but has no agreement that involves the auditing of funds.
